

PE Wax 120P

High density polyethylene wax. Powder form, snow white. Physical form: powder.

Typical Properties

Property	Specification	Test Method
Density	0.92 - 0.94 g/cm ³	ASTM D-1505
Penetration Index	3 - 4 (0.1 mm)	ASTM D-1321
Viscosity @ 140 °C	10 - 30 cP	ASTM D-3236
Flash Point	min 180 °C	ASTM D-92
Appearance	Powdered polyethylene wax, snow white	Visual

Typical Applications

Hot melt adhesives, PVC stabilizer systems and plastics compounding where a powdered wax is required.

Packing

25 kg PP bags. Palletized loading available.

Storage & Handling

Store in tightly closed original containers in a dry, ventilated area away from direct sunlight and heat sources. Shelf life: 36 months from production date.

Application suggestions are indicative; final suitability for a specific process or product is to be validated by the customer. This product is not certified for food, cosmetic or pharmaceutical use unless separately documented. The values above are guaranteed specification limits. A batch Certificate of Analysis with measured results accompanies every shipment. Independent pre-shipment inspection (e.g. SGS) is available on request.
